

Muhammed Thaha Jasmine (MJ)

Chief Executive Officer

Muhammed Thaha Jasmine is the Chief Executive Officer of Enso 8 and a seasoned video editor and Digital Imaging Technician with over a decade of experience in post-production and on-set workflows. A graduate of the K. R. Narayanan National Film Institute, MJ brings a rare balance of cinematic storytelling and technical mastery to every project he leads.

With extensive experience editing short films, documentaries, and feature films, MJ has shaped narratives across formats while also serving as a DIT on high-profile commercial productions. His credits include major international campaigns such as Pepsi–Ranveer, Etihad Airways’ Mission: Impossible campaign, Nissan X-Trail, Amazon Ramadan, Emirates x NBA Cup Promo 2024, and Infinix Note 40 Pakistan, among others. His ability to manage data, colour and editorial vision makes him a key bridge between set and post.

As CEO, MJ oversees creative direction and post-production strategy at Enso 8, ensuring that storytelling, technology, and execution move in sync. His leadership is rooted in a deep understanding of timelines, both narrative and technical, allowing the studio to deliver complex projects with precision and clarity.

Inspired by big ideas that are simple, scalable, and culturally resonant, MJ cites the Coca-Cola Twist Bottle College Campaign as a benchmark for impactful advertising—proof that strong ideas, when executed smartly, can outperform expensive spectacle.

Bharath R

Managing Director

Bharath is the Managing Director at Enso 8, overseeing creative execution, client relationships, and end-to-end production delivery. With a background in filmmaking and post-production, he brings a structured, outcome-driven approach to ensuring every project meets both creative and commercial objectives.

A graduate of the K. R. Narayanan National Institute of Visual Science and Arts, Bharath has worked across short films, documentaries, branded content, and large-scale corporate productions. His professional experience spans India and the Middle East, where he has led and contributed to projects for government entities, global brands, and major corporate events, including work associated with COP 28, Abu Dhabi Government initiatives, Emirates Steel Arkan, PwC, and international commercial campaigns.

In his role at Enso 8, Bharath focuses on translating creative vision into dependable execution, aligning teams, timelines, and expectations with clarity and accountability. He works closely with clients to ensure smooth collaboration, transparent communication, and consistent delivery across every stage of production.

Prince Dirron

Chief Operations Officer

Prince Dirron serves as Chief Operations Officer at Enso 8, where he oversees production workflows while actively contributing as a 3D artist. With a background rooted in problem-solving, visual execution, and marketing sensibility, he plays a key role in aligning creative ambition with operational efficiency.

As a 3D artist, Prince brings hands-on expertise across look development, design, compositing, editing, and supervision. His understanding of the full production pipeline allows him to streamline processes, guide teams effectively, and ensure projects move from concept to delivery with clarity and consistency.

Prince has worked on projects for brands such as Cult, Adidas, JBL, Zepto, Kappa Culture, Clikon, and Tata Soulfull, contributing to work that balances visual quality with real-world

production demands. At Enso 8, Prince bridges creative execution and operational leadership, ensuring that ideas are not only strong, but delivered with precision.

M R Vishnuprasad

Creative Director

Every team needs someone who doesn't arrive with answers, but with a different way of looking. MR Vishnuprasad is that difference at Enso 8. While most advertising begins with formats and finishes with messaging, Vishnu begins elsewhere: with writing, performance, and the physicality of ideas. He situates his practice at the intersection of making and meaning, using embodied, textual, and digital mediations to bring composed attention to the contemporary moment.

An "embodied fictionist," as he describes himself, Vishnuprasad runs on poetry and performance, grounding ideas in rhythm, movement, and meaning. At Enso 8, he brings this sensibility into commercial storytelling, where craft matters as much as concept. Vishnuprasad trusts poetry as much as planning, and performance as much as pitch decks. His approach adds depth where speed is expected, rhythm where structure dominates, and restraint where excess is easy. He ensures that creativity doesn't just communicate, but it lingers.

Strengths: Artistic research, Philosophical exploration, Writing

Amal Krishna

Head of 3D Department

Amal Krishna leads the 3D Animation team at Enso8. He has over five years' experience leading the delivery of high-quality 3D animation projects across commercial and digital platforms. With a professional background rooted in animation, he brings a strong understanding of visual performance, technical execution and production efficiency to his leadership role.

In his capacity as department lead, Amal has managed cross-functional teams and contributed both strategically and hands-on across animation, modelling and end-to-end 3D production pipelines. His work spans leading brands and platforms including Cult, Zepto, PUBG, CRED, ARM, JBL, Crocs, Clikon and Himalaya, as well as digital and cultural content initiatives such as Kappa Culture. He is known for aligning creative objectives with operational requirements to ensure consistent quality, scalability and on-time delivery.

A key milestone in his career was his leadership role on Cult, where he assumed responsibility for both creative direction and execution within the 3D team. This experience reinforced a leadership approach focused on structured workflows, clear communication and accountability across teams. Since then, he has continued to build and lead high-performing teams whilst optimising production processes and maintaining visual standards.

As Head of 3D Animation, Amal provides strategic oversight, establishes departmental benchmarks and drives execution across projects. His leadership balances creative intent with production realities, enabling teams to deliver reliable, business-aligned outcomes at scale.

Adith C Satheesh

3D Generalist

Adith C Satheesh is a 3D Generalist with over five years of professional experience working on large-scale narrative and commercial productions. He specialises in photorealistic

environments, lighting, and maintaining visual continuity across complex VFX pipelines. His work focuses on creating believable digital spaces that integrate seamlessly with live-action footage and support the overall visual language of a project.

With strong capabilities in look development, environment design, lighting, compositing, and editing, Adith brings a comprehensive understanding of the end-to-end 3D pipeline. He works closely with supervisors, artists, and production teams to ensure technical accuracy, visual consistency, and efficient execution at every stage of production.

Adith has contributed as a key team member on major film projects including Kalki 2898 AD, DEVA, PEDDI, BRO, 2018, and Patriot. Across these productions, he has supported high-volume asset workflows while maintaining a strong focus on realism, lighting continuity, and final-shot integration.

Known for his detail-oriented and methodical approach, Adith ensures visual coherence from layout through final composite. He is highly collaborative by nature, adapting to established creative direction and contributing reliably within team-driven environments. His strength lies in execution, consistency, and problem-solving, helping productions meet both creative and technical standards.

Sanjay. S

3D Generalist | Lighting/FX

sanjay is a 3D generalist with over six years of experience crafting immersive digital visuals that balance technical precision with strong creative intent. Specialising in lighting, simulations, and visual effects, he brings concepts to life through meticulously designed worlds that enhance narrative impact.

His expertise spans procedural modelling, look development, lighting design, and FX simulations. Sanjay has contributed to campaigns for brands such as Fast Track, Amazon,

BryAir, and Fyffes, consistently delivering polished, production-ready visuals that align with both creative vision and commercial goals.

Driven by a deep appreciation for visual storytelling, Sanjay draws inspiration from iconic work like the 2007 Havells Rinpoche campaign, a powerful example of how restraint and craft can create lasting impact. Outside the studio, he enjoys the strategic depth of chess and exploring science fiction, from Isaac Asimov to Andy Weir, interests that subtly inform his imaginative and analytical approach to 3D art.

With a strong technical foundation, thoughtful creative sensibility, and a collaborative mindset, is an integral part of the Enso 8 team.

Nibu Samuel

2D Animator | Motion Graphics

Nibu Samuel is a seasoned 2D animator with over seventeen years of experience across character animation, motion graphics, and explainer-driven storytelling. He brings clarity, rhythm, and personality to visuals designed to inform, engage, and endure.

His work spans character-led animation and infographic-based narratives, where movement is used not just for aesthetics, but to guide understanding and emotion. Drawing on nearly two decades in the industry, Nibu approaches each project with consistency, precision, and a deep understanding of visual communication.

A steady creative presence within Enso 8, Nibu's experience and craftsmanship continue to elevate animated content across platforms and formats.

K O Akhil

Senior Cinematographer

Akhil believes stories reveal themselves frame by frame, often against the plan.

As a senior cinematographer, he approaches each project with patience and a steady eye, letting composition, movement, and light do the work words cannot. He is interested in how images carry memory; how a slow pan, a held shot, or a quiet cut can suggest more than it shows.

He has filmed enough to know that spectacle fades quickly. What remains is rhythm, continuity, and the strange intimacy between camera and subject. At Enso 8, he plays a central role in translating concepts into visual language that feels coherent, purposeful, and engaging.

Strengths: Cinematography, visual narrative development, camera, Fiction & non-fiction filmmaking

Akshay K P

Cinematographer

Akshay K P is an accomplished cinematographer and media director with over a decade of experience crafting visually driven stories across commercials, branded content, live events, and narrative projects. His work seamlessly balances commercial impact with cinematic sensibility, translating ideas into powerful visual experiences for global audiences.

His portfolio includes collaborations with internationally recognised brands such as Tata, Adidas, Ferrari, Aston Martin, Manchester United, Google, Budweiser, GQ Magazine, Volvo, Cult.fit, and JBL. Akshay has also worked as a Second Camera Unit Cinematographer on a Netflix series, contributing to long-form storytelling at a global production scale. In parallel, he leads media direction for prominent cultural platforms including Kappa Cultr, Dgtl

International, Echoes of Earth, and Freeground Kochi, shaping the visual identity of large-scale experiential events.

Akshay began his career assisting National Award-winning filmmaker Ashiq Abu, an experience that instilled a strong cinematic discipline and a nuanced understanding of visual storytelling. Today, his approach blends technical precision with narrative depth, making him a trusted creative partner across both commercial and cultural projects.

Athul Sudhakaran

Editor

Athul Sudhakaran is a video editor with over five years of professional experience delivering fast-paced, engaging content across commercial and branded productions. His work is defined by strong rhythm, precise timing, and clear visual flow, with a particular strength in

dynamic transitions and sharp, purposeful cuts that maintain audience attention while supporting narrative clarity.

Athul brings a detail-oriented and deadline-driven approach to every project, performing consistently in high-pressure production environments. He is highly adaptable, able to shift efficiently between different visual styles, pacing requirements, and platform formats while aligning creative execution with brand objectives and campaign goals.

His portfolio includes work for global automotive and lifestyle brands such as **Nissan**, **Porsche**, **BYD**, and **Red Bull**. Across these projects, Athul has delivered high-impact, platform-ready edits that balance energy with structure, ensuring consistency across digital, social, and commercial deliverables.

At Enso 8, Athul is valued for his reliability, efficiency, and creative focus. He collaborates closely with producers, directors, and design teams to translate creative intent into polished final edits, bringing momentum, clarity, and consistency to every stage of post-production.

Gokul R Nadh

Sound Designer

Gokul is a sound designer with over five years of experience crafting immersive audio landscapes for films, branded content, and digital media. His work focuses on shaping atmosphere, emotion, and texture, using sound as a narrative tool that deepens the viewer's connection to the visual.

With strengths spanning sound effects design, ambient sound creation, noise reduction, and sci-fi sound design, Gokul approaches each project with a sharp ear for detail and mood. His credits include work for Entri, One Fine Day, and Chai Bisket.

Driven by a curiosity for how sound anchors emotion and reality, Gokul believes that it's often the smallest, strangest sounds that make a moment feel alive. Outside of production, he enjoys content creation and reading—interests that continue to shape his creative perspective.

Nandagopan P

Sound Mixing Engineer

Nandagopan is a sound designer and mixing engineer with six years of experience shaping cohesive soundscapes that support and strengthen narrative storytelling. With a strong ear for balance, clarity, and emotional continuity, he specialises in bringing together layers of sound into mixes that feel natural, immersive, and story-driven.

Rooted in sound design, Nandagopan approaches mixing as a creative extension of the narrative, carefully sculpting tone, space, and dynamics to serve the visual. His work reflects an appreciation for simplicity and universality, inspired by campaigns such as the iconic Vodafone ZooZoo, where minimal dialogue and sound played a key role in storytelling.

Thoughtful and methodical in his process, Nandagopan believes in letting a project evolve, earning the reputation of a slow starter and a strong finisher. Outside the studio, he channels his creativity into music production and cooking, pursuits that mirror his approach to sound: balance, timing, and intuition.

Athul Prakash

Colourist

Athul Prakash is a professional colourist with four years of experience shaping the visual language of films, commercials, and music videos. His work is driven by precise colour grading, refined contrast control, and a strong sensitivity to visual rhythm and tone.

With a solid foundation in both the technical and creative sides of colour science, Athul approaches every project with clarity and intention. He specialises in building colour palettes that reinforce narrative emotion, enhancing mood, continuity, and visual impact without drawing attention away from the story.

Passionate about the intersection of storytelling and colour technology, Athul consistently delivers results that meet high creative expectations and exacting technical standards. His collaborative nature and dependable workflow make him an essential part of Enso 8's post-production process.
